In my haste to send the revised fact sheets yesterday, I must have attached the wrong version that didn't include all edits. Let me know if you're ok with the attached versions (1st attachment: clean/with changes incorporated and 2nd attachment with track changes). If so, I'll resend this.

Darlene

There may have been a bit of a mix up of versions.
I attached the version Kim edited to address Rick's comments.
I think you made some edits too – can you marry them up. thanks

Hi Darlene – Could you please help address additional comments from Rick on #14 and #23. The #14 version you sent this afternoon did not address his comments at all. Maybe the wrong version was attached? These have not gone to Michal yet. So more comments still can come from her.

One by one, we're getting closer! Thanks for your help

Subject: DAA Comments on OPP Fact Sheets

Good afternoon,

We received comments back from the first tranche of fact sheets sent to Michal, all of which were OPPT. In some cases, Michal requests a pivot in the presentation of some of our information. The first attachment for methylene chloride

(OPPT) is provided as an example of those comments as well as the paragraph pasted further below. Please use this information to help inform your revisions.

The remaining 8 attachments include comments from Rick, some of which refer to Michal's early comments to OPPT/TSCA fact sheets.

We continue to be under a very tight timeline to clear fact sheets through Michal. Can you please provide revised fact sheets to Khanh, Brian and I by 10AM Monday, April 5? We're happy to receive on a rolling basis.

Feedback from Michal re: OPPT Facts Sheets:

Ex. 5 Deliberative Process (DP)

Thanks,
Dan
